*Please complete one form for each request made and return to H-143 Capitol Building A.S.A.P. Any questions regarding this form should be directed to the Subcommittee at x 53241 .*

Requesting Member Name: Mr. Radanovich Number of Co-signers: 2

Member's Priority (ranked relative to all other requests) # \_\_\_\_\_

Grant Agency: EPA Account: Science and Tech. (EPA) (if other, please specify)

Is this project authorized?  Yes  No If yes, please include citation \_\_\_\_\_

Amount requested: \$ 7980000

Receiver of funds appropriated: International Center for Water Technology, California State Univeristy, Fresno

Exact location of project: Fresno, California  
(City/Town/Village/Borough, County, State)

Project Name (if applicable): Phase 1 of Project

**Purpose of the grant:** To establish a facility that supports an industry/university partnership dedicated to solving existing and emerging water quality and quantity problems through applied technology. This will include environmental remediation, efficient use of existing water supplies, research & development, education, and technology transfer. Water technology holds the promise to help mitigate the current and future water crisis facing the state and the nation. There needs to be a national focus on promoting water technology through industry/government partnerships. The International Center for Water Technology is designed to fill this role.

Estimated total cost of project: \$\$59,760,000.00

Has this project received funding in previous appropriations bills?  Yes  No

If Yes, what was the most recent fiscal year funding was received? \_\_\_\_\_

Has a request for this project been made to another subcommittee on Appropriations?  Yes  No

If Yes, which subcommittee(s)? \_\_\_\_\_

Are state/local matching funds available for this project?  Yes  No

If Yes, how much state/local funding is available for this project? \$Seed funding from the State of California, (\$100,000), Pending land donation from the State of California, (\$1,680,000), Water Industry Support of cash/equipment (\$10,000,000), Proposed funding from California State Water Bond (\$10,000,000)

**ALL water/wastewater/CSO/SSO infrastructure requests will be funded through the EPA/STAG account that requires a 45% non-federal cost-share. For EPA/STAG requests:**

Is the required 45% non-federal cost-share available for this project?  Yes  No

**Directions for Completing Member Request Electronic Form:**

All Member requests should be made in writing to Chairman James T. Walsh on letterhead and must be signed. The Subcommittee form should accompany each letter requesting earmarked funds. Forms submitted without letters will not be considered. Forms are not necessary for letters regarding program levels.

Please complete ALL questions and do NOT edit the contents of the form. Please also be concise and accurate in your answers.

For letters with multiple co-signors, each Member signing the letter should submit a form separately, especially if the project is of high priority relative to other requests made to the Subcommittee.

The number of co-signors should match the actual number of signatures for the original letter.

Please note that the Member's priority is very important in assisting the Chairman with funding decisions. Should the relative ranking of projects change after this form is submitted, please contact the Subcommittee immediately to indicate these changes.

You will need to identify the grant agency and the appropriations account for each request made. You are encouraged to refer to previous bills and reports to determine the appropriate account and be sure that the purpose of your request is consistent with grants funded in the past. Should you have questions, please contact the Subcommittee for direction.

Some projects, including many in VA, require authorization. Please indicate if your specific project is authorized.

Please be sure that the appropriation dollar amount you are requesting is consistent with any matching requirements of the grant program. You might also want to refer to previous conference reports as a guide for the typical amount of a grant awards.

The receiver of funds is the grantee that would apply for funding should the project receive an earmark. Please be sure that the grantee named for your project is eligible to receive funding.
